

# EDSB Are Recruiting!

## Electrical Engineer

### Overview

The EDSB Group of Companies are national providers of Fire & Security, Electrical, Mechanical and Building Services. From Design and Specification through to Installation and Maintenance, our focus is to deliver compliance, alongside an unbeatable level of service.

We work nationally across the UK and we pride ourselves on being a flexible, client focused organisation responding quickly and efficiently to our clients' needs. Our aim is to work closely with our valued clients to ensure our service delivery is exceptional at all times.

### Role Description

We are now looking to employ a number of Electrical Engineers to work across a number of sites in the South of England.

As an Electrical Engineer you will design, develop, test and install a range of fire, security and electrical installations to the required specifications and standards, whilst providing technical support and mentoring to other engineers.

This role will include but is not limited to the items below :

- To install fire, security and electrical systems to relevant industry standards, providing exceptional client service, with industry leading technical knowledge.
- Liaise with and take direction from the Design team and Project Manager to ascertain requirements for the project, in accordance with the technical specification.
- Work within project time constraints, identifying and communicating without delay any potential risks to the project delivery dates.
- Willing to work away as required to meet the project programme.
- Updating and maintaining system software/graphics.
- Carrying out fault finding/diagnostics/client reporting.
- Conduct site surveys, advising and assisting with systems designs to confirm electrical requirements.
- Provide technical support to the engineering and design team as required.
- Ensure timesheets and all other relevant paperwork is completed on time.

- Undertake any relevant training as required.
- Ensure all relevant H&S requirements are complied with.
- Secondment to the Service Department as required by the business or on to any other projects as required.
- Ensure the health, safety and welfare of yourself and the team in accordance with Company policy.
- Completion of the relevant e-documentation (via tablet) or paperwork in line with SSAIB & BAFE requirements
- To actively support at all times, company policy and best practice in the area of fire and security, with particular emphasis on the protection of sensitive customer information.

## Required Skills

- Experience within the Fire, Security and Electrical Systems industry
- Strong track record of working in project teams of various sizes
- A clear understanding of, or experience within a client-facing & construction environment.
- Excellent analytical and problem-solving skills
- Excellent interpersonal and communication skills
- Professional, organised, and highly methodical
- Strong work ethic
- Excellent timekeeping and time management skills
- Willingness to go the extra mile
- Self motivated and a team player, demonstrating professionalism, positivity and proactiveness

Working hours are 08:30 to 17:00 with a 30 minute lunch break. Salary will be discussed at interview stage.
