

2 YEARS STRONG: EDSB SUPPORTING GETAWAY GIRLS

EDSB are Committed to Partnerships

The Getaway Girls are a well-known charity based in Leeds, supporting young women to learn new skills and build confidence, resilience & aspiration. In November 2022, EDSB Compliance Solutions participated in the BBC 1 Children in Need programme DIY SOS, in aid of the Getaway Girls. EDSB and our supply chain supplied and installed a compliant Fire Detection system as well as a state-of-the-art CCTV system for the charity's brand new building.

Once the TV crews had gone, EDSB introduced its business to the Getaway Girls' Founder and CEO, Flavia Docherty to explain what elements we had installed and how they operated, which was a huge help to their team. In addition to this, we recognised that with all this new added infrastructure, there was now additional pressure for the Getaway Girls to have maintained systems in order to keep compliant. Therefore, we pledged to maintain our Fire & Security offering for as long as EDSB is in operation, which we hoped to take away unnecessary pressure and allow Flavia and her team to focus on what they do best.

Now we are two years into the partnership, EDSB have revisited the Getaway Girls to reflect on our journey and to also look at how we can support them in other ways. Following a successful meeting, EDSB have been provided with some excellent ideas on how we can support them and we look forward to announcing those later this year.

We asked Flavia what her thoughts were on the EDSB partnership at this moment in time:

"A massive thank you to EDSB for the ongoing support for Getaway Girls. The support over the past 2 years has been a lifeline for the charity. We've been able to create a safe space for girls and young women at our Young Women's Centre, which has had Fire Safety and CCTV equipment as well as ongoing support donated by EDSB. The company's values align with ours and I hope we continue to support girls' and young women's needs into the future."

EDSB wishes the Getaway Girls the best of luck with their new project and look forward to supporting them achieve their goal. If you would like to support this fantastic organisation, simply:
