

# EDSB SUPPORTS THE KILIMANJARO CHALLENGE FOR DIABETES UK

*Backing an incredible challenge to make a difference!*

## About Diabetes UK

**DiABETES UK**  
KNOW DIABETES. FIGHT DIABETES.

Diabetes UK is the charity leading the fight against the UK's devastating and fastest growing health crisis, working to create a world where diabetes can do no harm. The organisation funds research, raises awareness and provides vital guidance to help improve the lives of millions affected by type 1, type 2 and gestational diabetes.

## Standing with SES for a cause

On **Thursday, 28th May 2026**, Dave and Gary from **SES**, one of our valued clients, will take on the extraordinary Kilimanjaro Challenge in support of Diabetes UK.

This is no small feat. Climbing Mount Kilimanjaro demands determination, resilience and courage - qualities Dave and Gary are bringing to this inspiring journey to raise awareness and vital funds.

EDSB has proudly donated £500 to support their efforts, recognising the importance of what they are aiming to achieve and standing behind a challenge that resonates with so many people.

We encourage others to get involved, as every donation, no matter the size, contributes towards making a meaningful difference and creating a lasting impact.

Scan this QR code to donate via their JustGiving page.
