

SUMMER GRASSROOTS UPDATE

BARNSELY BSAC DIVERS - YORKSHIRE

Proudly sponsored by EDSB Compliance Solutions

Reaching New Depths in Barnsley!

EDSB is delighted to be supporting Barnsley BSAC Divers, a non-profit, BSAC-affiliated SCUBA diving club based in South Yorkshire. We were introduced to this club through our Remote Engineer Desk Engineer, Tom Markey, who is also an active diver with the club.

Through this connection, we were able to see first-hand the club's strong sense of community, commitment and passion for making diving accessible to all. They offer a mix of high-quality training, regular diving and social events. All instructors are nationally qualified volunteers, as are the committee members who run the club!

This is why we were more than happy to sponsor their Delayed Surface Marker Buoys (DSMBs) - an essential safety item, which will allow the divers to continue doing what they love safely.

EDSB is proud to play a small part in supporting a club that is built on passion, teamwork and a shared love of diving. We wish the club every success in their future dives and underwater adventures!

ANN BAILEY, CHAIRPERSON

"EDSB's sponsorship has made a real, practical difference to day-to-day club life. It has enabled us to purchase a number of DSMBs - essential safety items that are now used regularly in training and are available for members to borrow on club dive trips. This ensures divers are better prepared, more confident and safer in the water."
